

Dear Rolf,

Thank you for writing. Your story is charming and admirable.

Our Neudorf was settled by German immigrants way back in 1842. No grapes were grown until an Austrian – Hermann Seifried planted in the early 70s followed by us in 1978 (www.neudorf.co.nz) We do sell a little wine though Vinabonus www.vinabonus.com . Hilmar will be showing out wine at Prowein soon.

We have many German interns over vintage in NZ – and we have hosted about 10 young German winemakers (not all at once).

Good luck with your venture and I hope our paths cross one day and ,aybe we can share a bottle of each other's product. Interestingly we are about to make our first batch of grappa

Cheers

Judy

We are on facebook if you wanted some more photos of us
